Sep '18 → Sep '19 — University of York, United Kingdom (Full-time)

↳ Masters of Science in Human-centred Interactive Technologies

Aug '14 → Jun '18 — National Institute of Technology (NIT), Durgapur (Full-time)

↳ Bachelors of Technology in Electronics and Communication Engineering

Feb '25 → Present — nova

↳ Principal Product Designer (Apr '26 onwards)

- Promoted to lead design across the product suite, driving conversion for POS, Handheld, and FOH, while leading 0→1 launches for Inventory, Nova Edge, Horizontal Kiosk, and Employee Management.

↳ Lead Product Designer

- Led NOVA's product design team, scaling it from **2 to 7 designers** while driving hiring, mentorship, design quality, and hands-on execution across products.
- Led the design of NOVA's white-label food ordering mobile app from concept to enterprise scale, directly enabling NOVA's first enterprise wins **($47K ARR + $1.3M ARR)** and supported a **2,000+ location** enterprise sales pipeline.
- Led platform-level design for AI marketing modules, dark mode, and kiosk refresh—driving enterprise adoption, 200% growth in campaign creation, and contributing to ~70% of $900K seasonal ARR.

Jan '23 → Feb '25 — SIMPPLR

↳ Senior Product Designer

- Led design for Android and iOS apps, delivering features like workplace search **(40% faster objective completion-time)**, rewards, smart answers, offline sync, among many, while creating and maintaining a mobile-specific design system.
- Crafted events calendar and sync features, resulting in a **28.85% increase in intranet event click rates** and a **13.58% increase** in users connecting external calendars like Google and Outlook.
- Developed diverse web app solutions, including multimedia (audio & video) and third-party integration UX (Slack, MS Teams). Created an in-house analytics library and launched a video analytics feature that considerably improved engagement metrics, leading to a **~38% increase** in native video creation

Jun '22 → Dec '22 — Khatabook®

↳ Senior Product Designer

- Owned design and user research for transaction-heavy POS workflows across web and mobile, leading the discovery and launch of one of Khatabook Web's paid transactional features, while scaling a cross-platform design system.

Aug '21 → Jun '22 — airtel

↳ Senior Product Designer

- Led design for prepaid recharge and core service journeys across Airtel web and mobile apps, **decreasing drop-offs from 27.5% to 12.75% in a $107M monthly revenue pipeline.**
- Designed and scaled key engagement features including **Missed Call Alerts** and **Airtel Rewards (25% converted revenue uplift).**
- Crafted **Airtel Digital's Theseus design system**, defining a scalable component architecture used consistently across mobile and web platforms, improving reusability, velocity, and long-term maintainability.

Oct '20 → Aug '21

Stylework

↳ Associate Director, Growth

↳ Led growth and product design initiatives across multiple launches, including a website redesign and beta corporate product suite, managing an 8-member team and cross-platform delivery.

↳ Played a key role in securing **INR 4Cr pre-Series A funding,** contributing to product strategy and execution during a critical growth phase.

Nov '19 → Sep '20

payu

↳ User experience design consultant

↳ Designed core payout and merchant dashboard experiences, reducing drop-off rates **from 55% to 15%,** & supporting successful beta launches for enterprise and neo-banking products.

↳ Led research and design for long-tail merchant products, unlocking a new revenue stream and increasing SMB GMV.

↳ Created COIN, PayU's internal design system, reducing reusable component based average feature delivery time from **~2 weeks to ~2 hours.**

Jan '19 → Sep '19

University of York

↳ User experience research intern

↳ Conducted user research and redesigned service workflows for university libraries, **reducing training time by 80%,** & improving **user satisfaction by 75%** through digital and physical design interventions.

Aug '15 → Jun '18

Independent contractor

↳ Digital design consultant

↳ Collaborated **with 15+ early-stage startups** across UX/UI, branding, and front-end web design, delivering end-to-end design solutions across multiple industries.

Small things that I'm proud of
